INDIRECT JOBS CREATED

ESTIMATED INDIRECT JOBS CREATED	2,595
ESTIMATED DOLLAR VALUE OF INDIRECT JOBS	\$119,729,489

Another measure of economic significance is the number of indirect jobs created. These are the additional retail, service, wholesale, and construction jobs that exist in the community because of the base. An estimated 2,595 of these secondary jobs were sustained in FY16. As a result of the payroll earnings of these secondary jobs, McConnell AFB, to include the 22 ARW, 184 IW, and 931 ARW generated an estimated additional \$119.7 million in indirect payroll earnings.

Military and civilian employees at McConnell AFB, to include the 22 ARW, 184 IW, and 931 ARW earned approximately \$346.8 million for use in the local area during FY16. An additional \$129.5 million was spent for base operations support, military construction and health care.

The total impact on the local economy of McConnell AFB and its tenants for FY16 was \$596.1 million, within a 50-mile radius of the base.
